Projects

Food Mockup App
09/2023 – 01/2024   UNIVELCITY, LAGOS, NIGERIA
Description
The food Mockup App is designed to act as a comprehensive visual representation of the final product. Its primary purpose is to visually convey the app's design, layout, and functionality. One of the key functionalities of the mockup is to showcase the user interface design. This includes elements such as color schemes, typography, button styles, and icons. The mockup also demonstrates the navigation flow, illustrating how user will move through the app, including screen transitions, menus, and interactive elements. Additionally, it displays the content layout for various screens, such as the homepage, restaurant listings, menus, and order summaries, giving a realistic feel of the app's usability.

Ecommerce Web Application
03/2024 – 06/2024   UNIVECITY , LAGOS, NIGERIA
Description
The ECommerce web application is designed to facilitating the online buying and selling of goods and services. Its primary purpose is to offer a seamless and user-friendly platform where customers can browse products, make purchases, and track their orders effortlessly. For businesses, it serves as a digital storefront that expands their reach, enhances customer engagement, and boosts sales.
