SUMMARY

Goal-driven data scientist with background in Pharmacy and Public health. As a pharmacist, worked across different healthcare settings spanning hospital, primary healthcare centre and community pharmacy, guided over 1500 patients on medication use for appropriate adherence and safe use. Fostered continuous, positive and open dialogue between junior staff members and senior management for 18 months in community practice. I am dedicated to proffering data-driven decisions for better outcomes.

TECHNICAL SKILLS: Python, Microsoft Excel

CERTIFICATIONS

McKinsey Forward Program, McKinsey & Company	2023
Certificate of Experience, Niger Delta University Teaching Hospital	2020

PROFESSIONAL EXPERIENCE

Data Scientist Intern	March 2024 till present
-------------------------	-------------------------

Univelcity | Remote | Lagos

- Conducted thorough preliminary data inspection to determine consistency of data.
- Implemented data cleaning, preprocessing and feature engineering to enhance data performance for model training and testing.
- Visualized different aspects of data using tools matplotlib and seaborn to explore trends and anomalies in the data.
- Prepared and delivered clear and compelling presentations, summarizing data insights and recommendations.

Pharmacist	August 2021 - December 2022
------------	-----------------------------

Nature's Corner Pharmacy | Port Harcourt

- Optimized drug redistribution to other community Pharmacies reducing drug expiration on shelf.
- Initiated the documentation of patients vital signs to determine overall effectiveness of drug therapy (chronic diseases).
- Evaluated information on patients drug therapy to identify common adverse effects and provided targeted educational materials.
- Reviewed inventory records to identify drug use pattern reducing out-of-stock incidence by 70%.

Pharmacist Volunteer	June 2021 - May 2022
------------------------	----------------------

Model Primary Healthcare Centre | Port Harcourt

- Kept detailed patients medication record for ease of follow-up.
- Counselling patients on disease preventive measures, drug safety and side effect.

Pharmacist

June 2019 - June 2020

Niger Delta University Teaching Hospital | Bayelsa

- Assessed distribution pattern of drugs from bulk store to other Pharmacy units improving drug inventory management by 20%
- Disseminated up-to-date drug information to other healthcare professionals and patients on regular basis
- Presented on in-patients drug therapy, leading to resolution of potential and actual drug adverse effects.
