Yaba, Lagos | 08183437774 | benjaminodeleye1@gmail.com | [LinkedIn](#) | [Github](#)

Profile

Collaborative and detailed-oriented Frontend Engineer with a knack for conceptualizing and delivering elegant, user-friendly solutions effectively and efficiently. Proficient in HTML, CSS, JavaScript, React, and Vue. I excel at crafting pixel-perfect designs using Figma and ensuring cross-browser compatibility. My expertise lies in creating production-ready designs that combine aesthetics with functionality.

Skills

Web Technologies and Framework: HTML5, CSS, Tailwind, Bootstrap, SaSS, Javascript, Vue, Nuxt, React & Redux, REST API , Strapi Js

Design Tools: Figma, Canva Workflow and Version

Control Tools: Git & GitHub, Firebase, Vercel, Netlify, Square Space, Slack, Jira, Trello, Google sheet, VSCode.

Work History

FRONTEND ENGINEER | CARGOPLUG, LEKKI, LAGOS

2021-08 – Current

Website: getcargoplug.com

- Led UI/UX design optimization projects, creating wireframes and mockups for various devices and platforms.
- Developed and implemented reusable frontend code using HTML5, Tailwind CSS, JavaScript, Vue.js, and Nuxt.js.
- Guided the development team through Scrum sessions using Jira, ensuring timely sprint completions and meeting challenging deadlines.
- Spearheaded the development and deployment of a user-friendly dashboard, revolutionizing logistics processes and contributing to a 50% increase in quarterly profits.
- Participated in peer code reviews, optimizing codebases for improved performance.
- Facilitated onboarding of B2B, B2C, and B2B2C customers on the dashboard platform, helping drive a 45% annual revenue growth.

FRONTEND ENGINEER (INTERNSHIP) | UNIVELCITY, YABA, LAGOS

2021-04 – 2021-07

- Collaborated with design and project teams to create innovative digital solutions, including a fully prototyped mobile real estate app and a medical specialist website using Figma and Canva, enhancing user interactions and usability.
- Co-developed a functional cinema booking website using CSS, HTML, JavaScript, and React, streamlining the reservation process and contributing to improved sales.
- Developed the frontend for Betterhope, an innovative platform connecting donors with verified NGOs in Lagos, Nigeria, as part of a hackathon competition. Utilized React.js and Tailwind CSS to create a user-friendly interface facilitating charitable donations.

Project

FRONTEND DEVELOPER (FREELANCE) | HAGE

2024-03 – Current

Website: tryhage.com

- Developed the frontend for Hage, utilizing React.js and Tailwind CSS to create a dynamic, responsive, and visually appealing design for the logistics web application.
- Integrated Strapi as a headless CMS to enhance content management, particularly for the blog section.

PRODUCT DESIGNER (FREELANCE) | THRIFTVAULT

2024-03 – 2024-05

- Created comprehensive dashboard designs using figma, enabling users to seamlessly join saving cycles, monitor progress, and initiate savings contributions.
- Developed a user-friendly wallet interface facilitating effortless withdrawals, enhancing accessibility for users managing their funds.

PRODUCT DESIGNER (FREELANCE) | JEKAEAT

2023-03 – 2023-05

Google Play: <https://play.google.com/store/apps/details?id=com.jekaeat.jekaeat&pli=1>

App Store: <https://apps.apple.com/en/app/jekaeat/id6452400533>

- Designed an intuitive interface connecting restaurants and food vendors with users, streamlining meal kits and fresh produce ordering.
- Created a rider's app for the food delivery services, contributing to sustainable transportation solution.
