+2347087248463

UI/UX designer with experience identifying and translating user needs, goals and requirements into visually appealing and usable product flows. My skills cut across the design process; user research, wireframing, prototyping and visual design. Enthusiastic about gaining valuable experience, creating user friendly products and influencing design decisions.

PRODUCT DESIGN WORK EXPERIENCE

Portshore Edge, Nigeria, March 2022 - September 2022

Freelance Designer

- Liaised with business stakeholders to identify website design needs.
- Carried out competitive analysis and delivered final user interface designs for development.

Vigesimal Systems, Nigeria, March 2023 - May 2023

Intern Designer

- Collaborated with product managers and stakeholders to understand website design needs.
 - Designed solutions to user pain points using knowledge of User Interface Design .
 - Delivered final user interface designs under the supervision of more experienced individuals.
