Summary

I am an individual who encourages learning new skills, takes up challenges, and is willing to channel all available resources to produce results and accomplish set goals.

I have worked on several projects that have given me a strong understanding of JavaScript, React, Next JS, CSS(including tailwind CSS, SCSS), responsive web design, emerging technology, and business trends. I have also demonstrated my ability to adapt quickly and excel in fast-paced, collaborative environments.

Based on the journey of learning and practice I've traversed in earnest, the result shown might probably not be the best, but with perseverance and hard work, it will be worthy of appraisal.

Education

University of Benin, Jan 2015 - Nov 2020

Bachelor of Science(Chemistry)

- **Key Courses:** Organic and Inorganic Chemistry, Environmental Science, Polymers,

Skills

Languages: Python, Javascript

Technologies: Microsoft Excel, React.js, Next.js, Django, MySQL, Postgresql, AWS, Bash, Git., Figma, Ui Engineering,

Professional Experience

Birotejob Integrated Limited (Assistant web development Instructor)

August 2024 - present

- Successfully improved student comprehension and practical application of HTML and CSS through interactive workshops and real-world projects.
